

Brasília/DF/Brazil, January 2026.

Dear Sir,

The **Açaí Motion®** Group presents to the market the newest product, exclusive, with no conceptual similarity to any other drink:

AÇAÍ MOTION®

Ready-to-drink liquid compound, Açaí and Guarana flavor – NCM 2202.99.00

Natural energy due to the properties of Açaí and Guarana

Taurine-free and only 3mg/269mL of natural Guarana caffeine

30% sugar reduction (85kcal/269mL), keeping the pleasant sweetness

Balanced B-Complex Vitamins for a daily supplement without excesses

Carbonated in the right measure for various types of consumption

Black Carrot Concentrate for healthier and more natural coloring

No red and blue dyes

The Açaí Motion® Group was created in 2019, just before the Pandemic, and consolidates its expansion activities from the end of 2021, starting in 2023 with a paid-up capital of millions of Reais, representing exponential growth. Today, our greatest capital is the creation of a product that those who try, LOVE, and CONSUME daily, all over the world, have tried in more than 62 countries, and unanimously APPROVED!

The concept of the product was due to a great global acceptance of Açaí - a Brazilian fruit from the Amazon region (known and respected in the Globe), with unique characteristics and consumed in different ways.

Our **Açaí Motion®** is a liquid, ready-to-drink, carbonated drink with exclusive characteristics, making it healthy, refreshing and can be savored pure or in drinks and special mixes.

The tax classification (NCM/SH) is the same as other energy drinks but with the difference

of **not having ingredients/composition that could harm your body**.

The strategy is to meet all tastes and reach the family consumer.

Mixing with other drinks, creating special and differentiated drinks, etc. is proving to be an additional attraction offered by **Açaí Motion®** in its flavor explosion. It is a new concept and product as *"The First Global Family Drink"*.

Focused on a growing approach to the international market, we immediately reached some countries where we have active partners and which are already receiving the product in their territories (ready-made and also for local can filling, where we export the preparation base from Brazil), such as Mexico, USA, Canada, Japan, Colombia, Ecuador, Bolivia, Chile, Paraguay, Puerto Rico, Dominican Republic (reaching the Caribbean as a whole), Germany, Portugal, Spain, Great Britain, Greece, Italy, Russia, reaching all of Europe, Emirates United Arabs, Lebanon, Israel, Turkey, Iran, India, New Zealand, Australia, Bahrain, Saudi Arabia, Qatar, Morocco, Tunisia, Libya, Philippines, Angola, Congo, China, and other markets that are starting dialogue for local production.

And we continue looking for partners who embrace the purpose of expanding **Açaí Motion®** network.

Açaí Motion® Group has an institutional website (www.acaimotion.com) that communicates objectively and transparently about the product, supporting the independent actions of our partners, distributors, and representatives throughout the world.

We have a global geolocation system so that all products can be located at their points of sale around the world, through our partner BYGS, present in over a hundred countries, which has created the BYGS APP for Android and iOS. Using a QR Code, we bring people closer to the points of sale and thus generate more publicity and attraction for all our customers.

We created a **Premium product**, with unique quality and competitive price, standardized for the global market.

Get out of the box, be different, be real!

"The First Global Family Drink"

Rafael Aun Ming

Founder & Chairman
